

A floor plan diagram of a room labeled "STANDARD DOUBLE". The room is rectangular with a width of 11'-4" and a height of 11'-3". At the top of the room, there are two beds, labeled "A" and "B", positioned side-by-side. Each bed is shown with a headboard and a footboard, and they are connected to a central point at the top by a diagonal line, possibly representing a shared headboard or a structural element. The beds are oriented with their head ends towards the top of the diagram. The text "STANDARD DOUBLE" is written in a blue box in the center of the room. The dimensions are indicated by blue lines with arrows: 11'-4" for the width and 11'-3" for the height. On the right side of the room, there is a rectangular area that appears to be a doorway or a built-in structure. At the bottom of the room, there is a horizontal line with three vertical segments, possibly representing a bench or a row of lockers.
